An effective method for figuring out a price is to send out a survey to your current customers. If these customers have already purchased an ebook from you, ask for their opinion by way of price. Do this by making a sales page for the new book, however do not include a price on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to test out prices by creating a number of duplicate sales pages with completely different prices on every page. Be certain your gross sales copy is exactly the same on

every page, and includes your promoting-deal with sentence. Then figure out for every page the conversion ratio between visitors to your site and gross sales of your book. This may tell you what your optimum price is.

In the end, if you happen to've written a book that solves a problem or presents a new approach, your ebook will bring in each traffic and profits.
